
Contents

Part I Foundation

1	Introduction	3
1.1	Motivation and Definitions	4
1.2	Business Process Lifecycle	11
1.3	Classification of Business Processes	17
1.4	Goals, Structure, and Organization	21
2	Evolution of Enterprise Systems Architectures	25
2.1	Traditional Application Development	26
2.2	Enterprise Applications and their Integration	28
2.3	Enterprise Modelling and Process Orientation	39
2.4	Workflow Management	49
2.5	Enterprise Services Computing	57
2.6	Summary	65
	Bibliographical Notes	67

Part II Business Process Modelling

3	Business Process Modelling Foundation	73
3.1	Conceptual Model and Terminology	73
3.2	Abstraction Concepts	75
3.3	From Business Functions to Business Processes	78
3.4	Activity Models and Activity Instances	82
3.5	Process Models and Process Instances	88
3.6	Process Interactions	96
3.7	Modelling Process Data	98
3.8	Modelling Organization	102
3.9	Modelling Operation	107
3.10	Business Process Flexibility	111

XII Contents

3.11	Architecture of Process Execution Environments	120
	Bibliographical Notes	124
4	Process Orchestrations	125
4.1	Control Flow Patterns	126
4.2	Petri Nets	149
4.3	Event-driven Process Chains	158
4.4	Workflow Nets	169
4.5	Yet Another Workflow Language	182
4.6	Graph-Based Workflow Language	200
4.7	Business Process Modeling Notation	205
	Bibliographical Notes	225
5	Process Choreographies	227
5.1	Motivation and Terminology	228
5.2	Development Phases	231
5.3	Process Choreography Design	233
5.4	Process Choreography Implementation	245
5.5	Service Interaction Patterns	248
5.6	Let's Dance	258
	Bibliographical Notes	266
6	Properties of Business Processes	267
6.1	Data Dependencies	268
6.2	Structural Soundness	270
6.3	Soundness	271
6.4	Relaxed Soundness	279
6.5	Weak Soundness	285
6.6	Lazy Soundness	290
6.7	Soundness Criteria Overview	299
	Bibliographical Notes	301

Part III Architectures and Methodologies

7	Business Process Management Architectures	305
7.1	Workflow Management Architectures	305
7.2	Flexible Workflow Management	310
7.3	Web Services and their Composition	315
7.4	Advanced Service Composition	324
7.5	Data-Driven Processes: Case Handling	333
	Bibliographical Notes	342

Contents XIII

8 Business Process Methodology	345
8.1 Methodology Overview.....	345
8.2 Strategy and Organization.....	348
8.3 Survey.....	350
8.4 Design Phase.....	351
8.5 Platform Selection.....	352
8.6 Implementation and Testing.....	354
8.7 Operation and Controlling Phase.....	355
Bibliographical Notes.....	355
References	357
Index	365
